

Refill jars with plunger ground coffee for motels and accommodation places in Kaikoura.

The small jars contain 20-25gms of plunger ground coffee.
Enough for a 2-3 cup plunger.

The label on the top is plastic so cleaning the jars is not a problem.

We like this idea as it **enables your guests to enjoy fresh, locally roasted plunger coffee** instead of the usual foil sachets.

Better coffee and less packaging.

We sell beans our ground coffee by the kilo, so you can refill the jars as they go.
